TheOoL DAO

DECENTRALIZED AND SERVERLESS
SECURE WEB HOSTING,
CLOUD COMPUTING AND PAYMENT SYSTEM

TheOoL.net TheOoL.site

What Is TheOoL?

DeFi

- Private Payments
- PoS
- Green POW

Serverless Services

- Cloud Storage
- Cloud Computing
- Search Engine

User Friendly

- Intuitive UI
- The Swiss Army Knife Approach
- Secure Yet Fast

Serverless Features

- Web Hosting
- Streaming
- Secure Audio & Video Calls

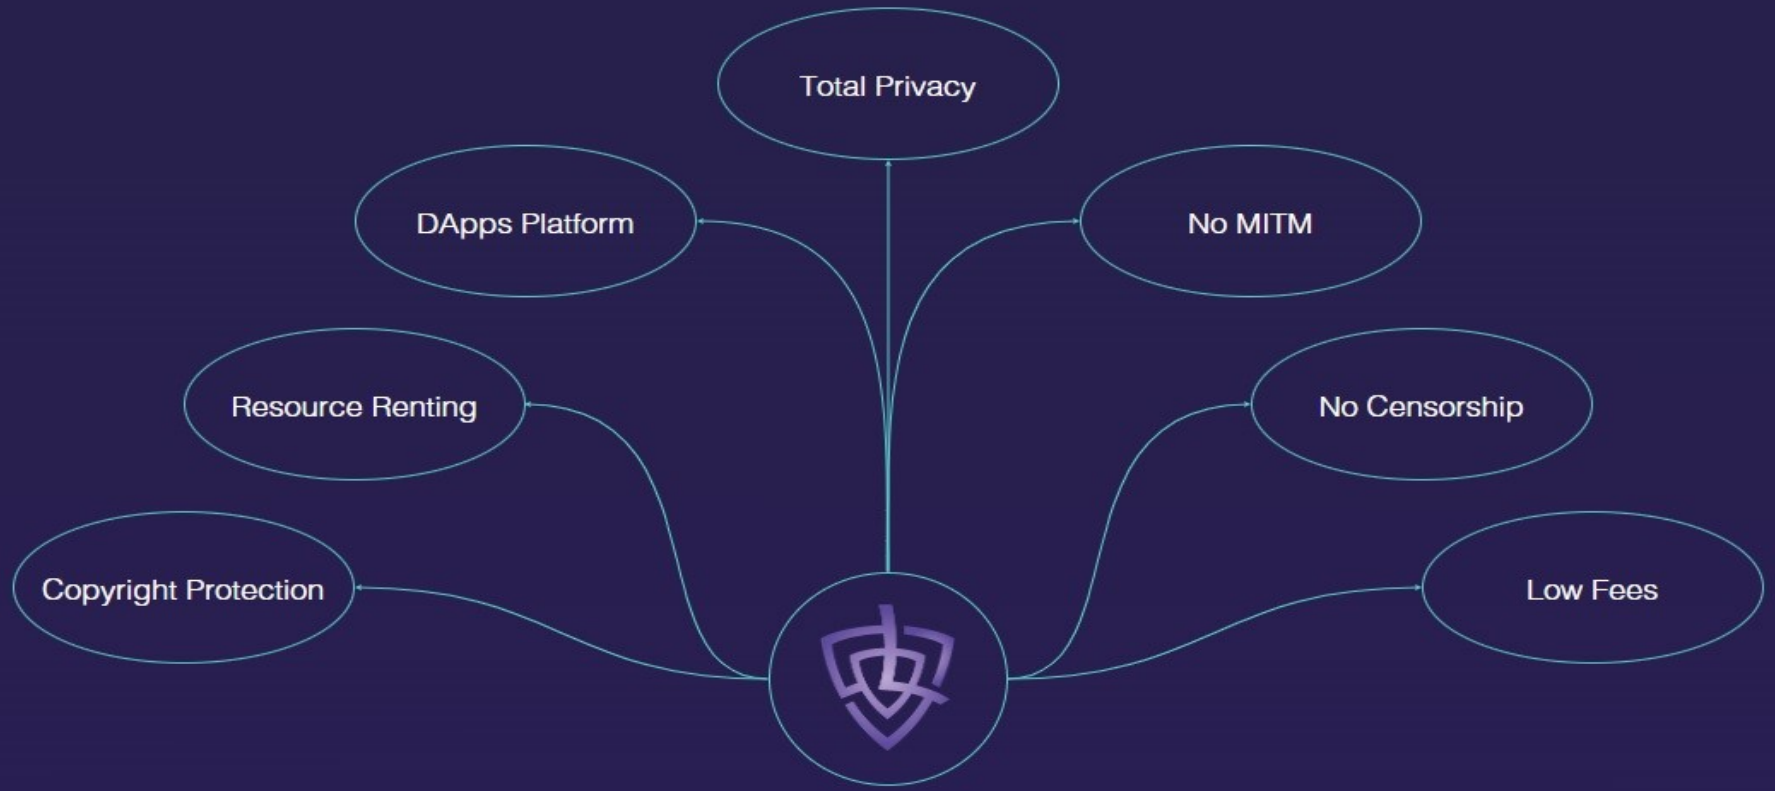
Here's Why You Need TheOoL



TheOoL.net

TheOoL.site

Make Money With TheOoL

Validation

Get 10% of all commissions in the stake served

How Do I Make Money?

Staking

- Buy TTG
- Choose your validator
- Stake your TTG

Your Benefits:

- Hosting Fees
- Communication Fees
- Cloud Storage Fees
- Registration Fees
- TU/Fiat Conversion Fees

Resource Renting

Offer your QoS server to TheOoL network (the more powerful the better)

Your Benefits:

- Data Storage
- Hosting
- Distributed Computing

TU

TheOoL network stablecoin for internal payments

TTG

Utility token for TU emission/de-emission and transaction validation

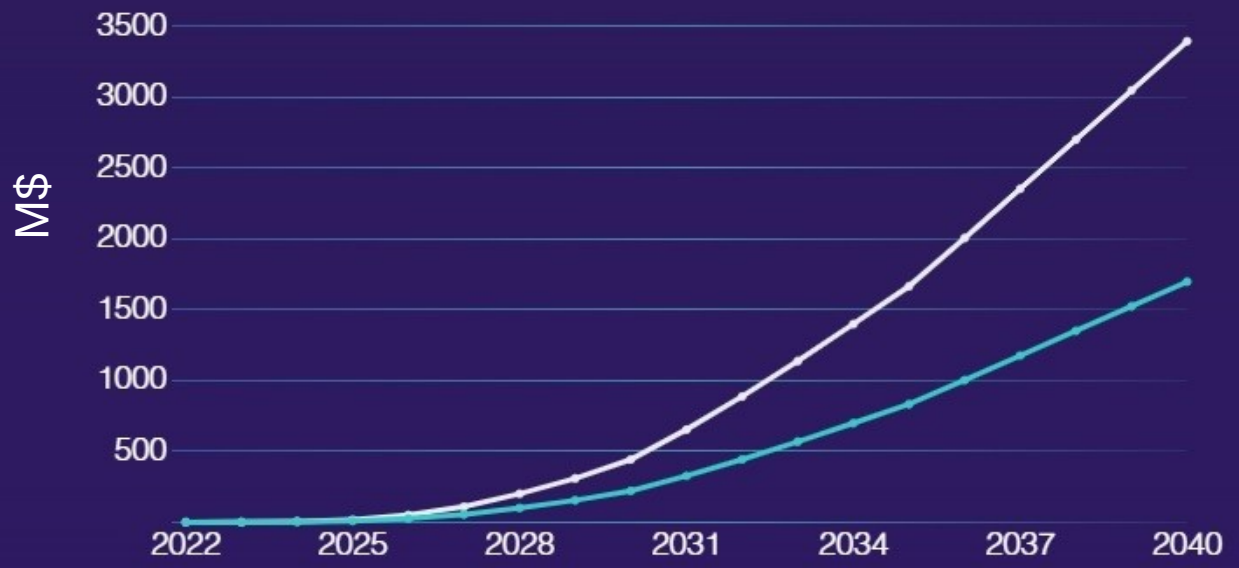
TTG Staking Yield*



*Estimated value of TTG cumulative total staking yield. Values of the staking yield shown in the chart represent simple interest without reinvestment of potential gains. These estimates are based on our development plans, TheOoL network growth, and are directly dependent on the number of network users and their activity in TheOoL network.

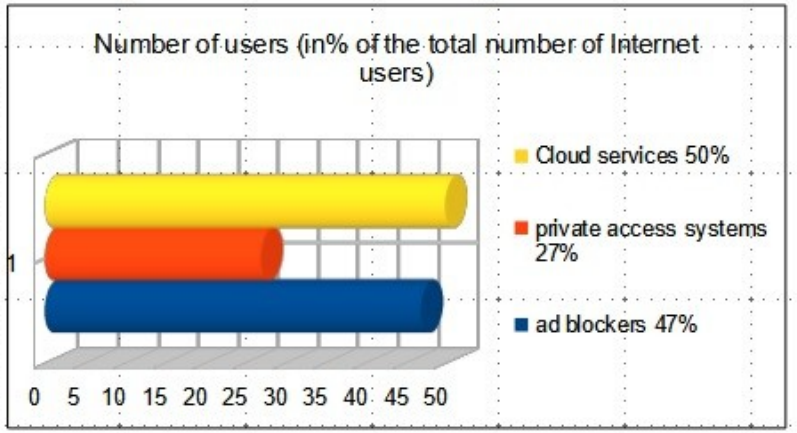
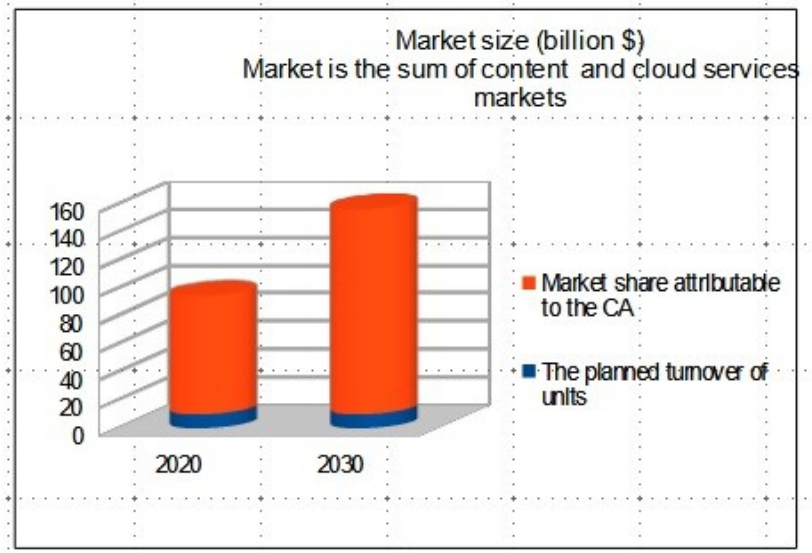
Target Market Analysis





Market size is the best proof of availability of the problem, or the number of online users who solve this problem one way or another. Our core audience ("CA") is people who use cloud services with systems of private access and content control. In accordance with the probability theory the size of CA equals

$$=\frac{50\% * 27\% * 47\%}{(100\%)^3} \cdot 100\% = 6{,}3\%$$

of the total number of the Internet users or 258,300,000 people worldwide. In money terms our 2020 Serviceable Available Market (SAM) stands at $141.7B with the annual increase of $8.7B. By 2030, our SAM is projected to reach $228.6B

The planned revenue of the company is $ 15 billion per year, which will amount to 6% of the market in 2030.
